Electronics and Communication Engineering
Jawaharlal Nehru Technological University, Ananthapur
Percentage: 75.94
- 2011: Higher Secondary
Narayana Junior College, Chittoor
Percentage: 89.8
- 2009: SSC
Kings English Medium School, Chittoor
Percentage: 87.6

EXPERIENCE

Data Analyst @ Cognizant Technology Solutions
Feb 2016 – Current

Text mining

Helped the client in building a system where he can efficiently buy the materials for mining from vendors by analyzing the material requests data from the workers in mines using NLP techniques.

Learnings: Text analysis, NLP, Regular expressions, tokenization, Spotfire dashboard development.

Tools: Jupyter notebook, Excel, Spotfire, Redshift database.

Regression Analysis for house price calculation

Worked in project where we predicted the house prices for our real-estate client using stacked ensemble method for model building.

Tools: Jupyter Notebook, Excel, Plot.ly

Hackathons

Participated and won the cognizant data hack by analyzing IPL data and predicting Batsman scores for 2018 using Lasso regression modelling technique and presented in website.
